Name – Mohammad Saqib ali

Reg-NO – 12506923

Problem Number – 225

Problem Name – Implement Stack using Queues

Problem level – Easy

```
class MyStack {
public:
    queue<int> q;

    MyStack() {
    }

    void push(int x) {
        q.push(x);

        int size = q.size();

        for (int i = 0; i < size - 1; i++) {
            q.push(q.front());
            q.pop();
        }
    }

    int pop() {
        int top = q.front();
        q.pop();
        return top;
    }
```

```
    int top() {
        return q.front();
    }

    bool empty() {
        return q.empty();
    }
};
```
